02 Who We Are

Al-Sawalem for Engineering, Environmental, and Occupational Health and Safety Consulting is a leading firm providing integrated solutions in the fields of (Engineering, Environment, and Occupational Health and Safety).

The company was established to meet the growing market demand for high-quality and sustainable projects, with a commitment to the highest international standards. The firm is dedicated to providing services characterized by precision, innovation, and responsibility, making it a trusted partner for numerous companies and institutions.

The company comprises a team of specialized experts and consultants who harness the latest technologies to ensure execution efficiency and achieve a balance between engineering requirements and rigorous environmental standards.

03 Our Vision

We aspire to regional leadership as the primary reference in integrated engineering and environmental consulting, by providing innovative solutions that combine technical expertise with the latest global technologies.

We seek to empower our partners to achieve excellence by integrating environmental standards into the core of their projects, while maintaining a full commitment to resource sustainability and enhancing operational efficiency to ensure the best results.

Our vision is completed by fostering a culture of occupational health and safety to efficiently protect personnel and assets, aiming to be the safest and most reliable partner in building a sustainable future for generations to come.

04 Our Values

Excellence:

We always strive to be at the forefront of our field by providing the best services.

Quality:

We are committed to applying the highest standards of accuracy and professionalism in all our services.

Sustainability:

Sustaining success through the same core values, as we always strive to remain at the forefront.

Collaboration:

Building strong relationships with clients and partners to achieve common goals.

Transparency:

We listen to our clients and develop our vision for the tasks before we begin our .work with them

Innovation:

Embracing global advancements to deliver cutting-edge and pioneering environmental solutions.

05 Our Mission

To deliver innovative engineering and environmental solutions rooted in the highest standards of safety and quality. We empower our clients to balance operational efficiency with environmental responsibility through expert expertise and advanced technology, building sustainable projects that protect today's assets and preserve tomorrow's resources.

06 Our Objectives

We aim to transform engineering visions into tangible reality with technical precision and full environmental compliance. We strive for Zero Accidents through rigorous controls that protect our people and enhance performance. Our goal is to deliver added value, making technical excellence and safety the cornerstones of every execution phase.

07 Our Services

01

Engineering Consultancy

We provide integrated engineering assessment and design for factories and companies, ensuring quality, efficiency, and full compliance with certified standards.

02

Environmental Consultancy

We provide Environmental Impact Assessments (EIA), pollution monitoring, and water analysis to ensure corporate compliance with environmental laws and standards.

03

Occupational Health and Safety Consultancy

We conduct workplace risk assessments and develop comprehensive safety plans to protect employees and ensure full compliance with government inspection requirements.

04

Fire Fighting and Alarm Systems

We provide the supply, installation, and maintenance of fire fighting and early warning systems, ensuring comprehensive protection for factories and buildings against any potential hazards.

05

Safety Equipment

We supply high-quality helmets, goggles, safety footwear, and protective clothing to ensure the safety of workers across construction sites and industrial facilities.

06
